

Happy Holiday!

Directions

Design: Cherry Carl

Game board clipart purchased from: graphicgarden.com

Print out a copy of the game board.

Enlarge to 12 x 18 (optional)

Color with crayons, colored pencils, and highlight with fine markers.

Glue game board onto vellum or a file folder. Avoid liquid or roll-on glue. Glue sticks work better and don't leave lumps. If you plan to laminate the game, you only need to put enough glue to hold it in place.

Use your -ay flash cards, dice and "men" (women?!) to play the game.
