What do little bears do in the summer?

Some little bears eat an ice cream cone.

Some little bears go fishing all alone.

Some little bears look for ladybugs.

Some little bears feel a kite string's tugs!

Some little bears drink cold lemonade

while sitting beneath the umbrella's shade.

Some little bears watch the bluebirds fly.

Some little bears can't wait for strawberry pie!

Some little bears go swimming in the sea.

Some little bears are as happy as can be!
