## The Perfect Picnic

Picnics are a great way to spend time with family and friends. What do you 15 remember when you think about picnics that you have taken? An invasion of ants? 29 Being rained out? Burned burgers or sand in your salad? Or did someone forget 43 to pack the plates and silverware? Hopefully, none of these things have happened 56 59 to you before! Where do you like to go for the perfect picnic? Some people like to go to 75 the park. There are usually tables, bathrooms and places to walk or ride bikes. You 90 can even roller skate around the park a time or two before you eat! Trash cans 106 116 are usually a short walk away from your picnic blanket! Some people would rather take a picnic to the beach. However, some 128 people don't always like to eat sand in their salads or on their hotdogs! Have you 144 had that happen to you before? Yuck! 151 Where do I like to have a picnic? I like to fix a tray for two or more and sit 171 on the floor in the den. On rainy days, we watch a video while we eat. No bugs, 189 ants, or other pests to ruin that picnic! My other favorite place for a picnic is in 206 222 our camper when we go fishing at the lake. We have a perfect picnic before we 231 go back out to catch a trout or two! You can have a perfect picnic anywhere that you choose: in a tree house, in 246 a tent, on a boat, or in your own backyard. All you need is some good food, 263 279 friends, games to play, and your imagination.
